

# SWEETS

## Introduction

Growing up as a child it felt like there was a sweet shop on every corner. We all remember the wonder of going into an old fashioned sweet shop with shelves and shelves of sweets behind the counter, almost touching the ceiling.

## Susan Rose

Pear drops and rosy apples but I don't remember the Blobs

## Phil

My favourites were Spanish Gold Tobacco made from coconut and chocolate cigarettes (very PC). We always went to the sweet shop before the Saturday Cinema club and stocked up on sweets for 3d. Then 6d for the cinema and 3d for a bag of chips on the way home. Luxury!!! A days entertainment for a whole shilling.
