LADYPOOL ROAD

ANDERTON PARK PRIMARY

In November we took Year Five on a guided walk of the road, looking at what is on sale and how the road has changed over the years. This is Adila's account:-

"Last Tuesday we walked down the Ladypool Road. It was really interesting. First we went to the jewellery shop and there was so much gold and it was shiny. I couldn't believe my eyes, I felt like buying it all! Next we went to a cake shop and I saw a nice cake with an angel and a castle on top. I wanted it. After that we went to a supermarket and I saw lots of red juicy apples, and lots of different fruits. I liked the smell of fried chicken. We interviewed Eric. He was a really nice man who came from the Caribbean. Eric was working in a big garage. He was repairing a greasy trolley with lots of bits. When he smiled you could see his big white teeth!"

- Eric works from a lockup garage at the Ladypool Road end of Brunswick Road.
